## Shake Hands With Your Future

### Morning Class Choices:

- Architecture
- Animal Sciences Food Technology
- In the Lab (Interdisciplinary science)
- Environmental Engineering
- Clinical Lab Science
- LEGO Robotics

### Afternoon Class Choices:

- Art
- Law
- Biotechnology
- Theater Arts
- Anatomy and Physiology
- Forensics

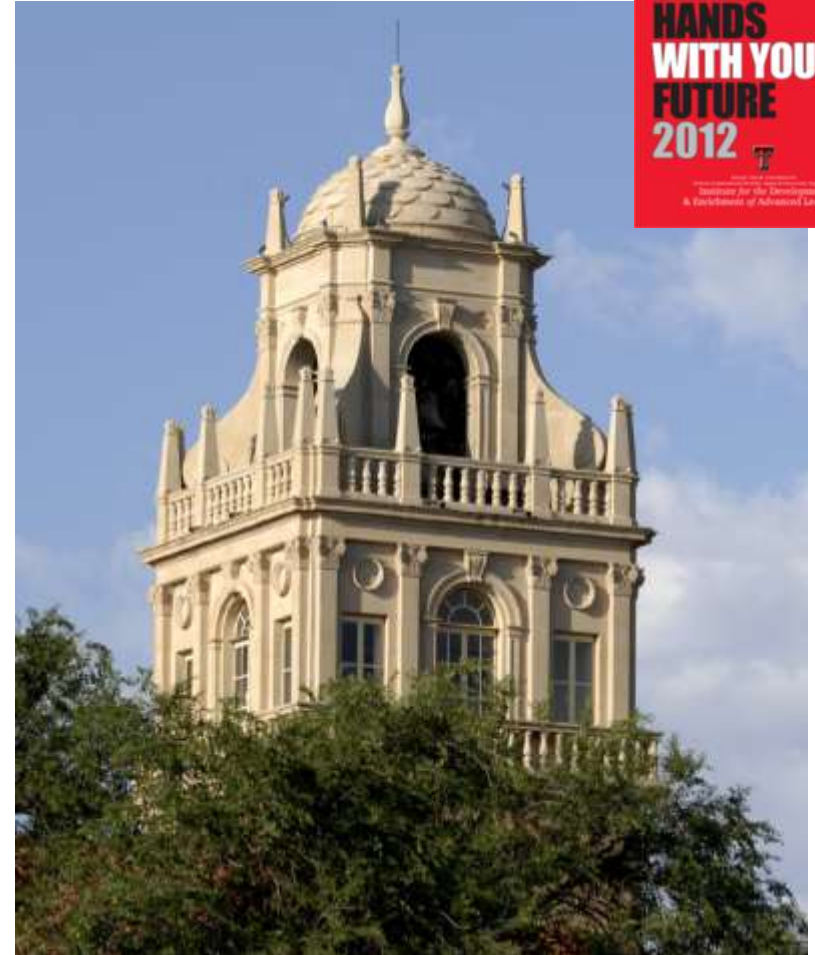

Shake Hands With Your Future > Mornings

## Architecture

- In this class you will become acquainted with architecture and its diverse elements and opportunities. You will experience architecture through hands-on design projects. This course stresses creativity and abstract thought and is designed to prepare you for the many aspects of architectural education.

Shake Hands With Your Future > Mornings

## Animal Science and Food Technology

- Learn about becoming a veterinarian, a farm animal manager, a meat industry manager, or an animal scientist. Classes include hands-on experiences with animals and animal products as well as basic scientific methods in biology.

# TTU SUMMER PROGRAM

> TTU Campus > Lubbock, TX > Day #7: Sunday, July 08, 2012

Shake Hands With Your Future > Mornings

## In the Lab

- The pursuit of science is an interdisciplinary endeavor. Through hands-on experiments, you will explore a number of fields like medicine, biology, chemistry and physics. If you are interested in gaining information to focus your academic path, or just want to learn more about several scientific disciplines, this class is for you.

Shake Hands With Your Future > Mornings

# Environmental Engineering

- In this class, you will learn how engineers solve problems while implementing planet friendly technologies. You will learn about cutting edge research, environmental challenges and the scope of the discipline. Through hands on experiments, you will gain insight about the inter-disciplinary nature of the field and learn about the academic skills necessary to succeed.

Shake Hands With Your Future > Mornings

## Clinical Lab Science

- Are you interested in becoming a medical detective? Learn how disease is investigated in the medical laboratory. You will have to learn and perform some clinical laboratory techniques in hematology, immunology, clinical microbiology, clinical chemistry, and transfusion services (blood bank) This class is conducted at the Texas Tech Health Sciences Center. Session I Only. **NOT CONFIRMED YET.**

Shake Hands With Your Future > Mornings

## Robotics

- You are invited to discover the precise world of engineering design! In this project oriented class, you will work in teams to focus on a specific design problem, develop creative solutions to that problem, select the best solution, and then build a scale model.

# TTU SUMMER PROGRAM

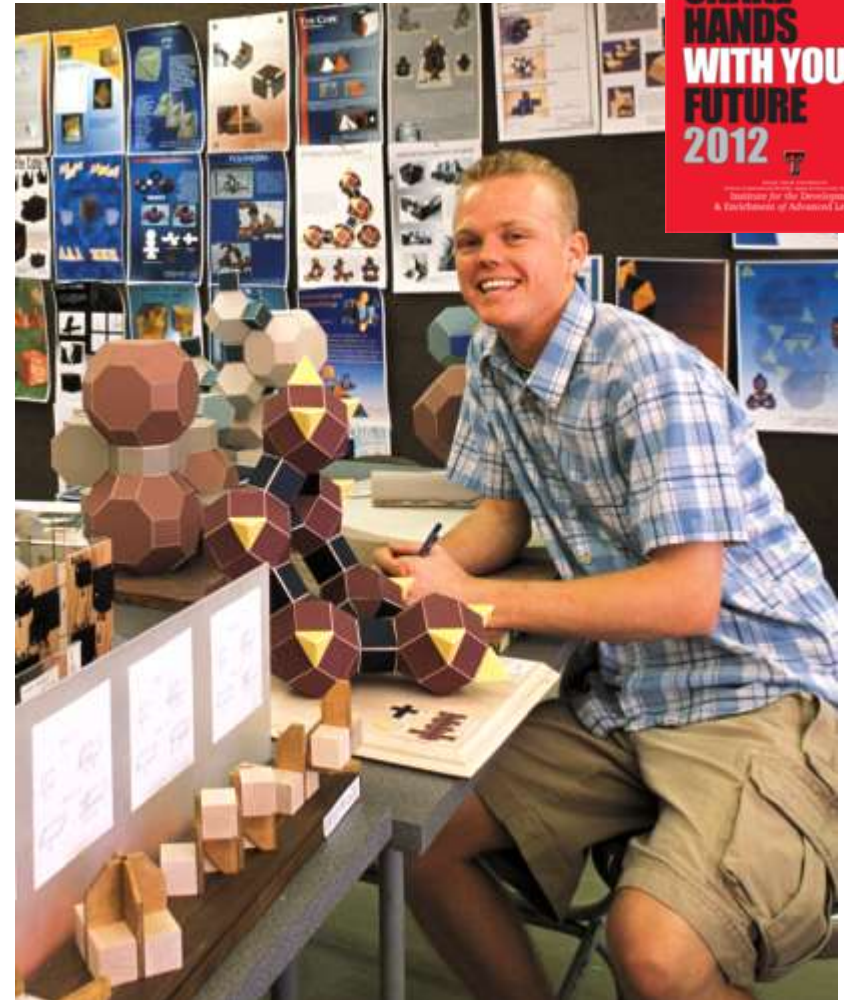

> TTU Campus > Lubbock, TX > Day #7: Sunday, July 08, 2012

Shake Hands With Your Future > Afternoons

## Art

- Discover and challenge your creativity through a variety of artistic experiences by exploring the exciting world of art. Learn about and create art through a wide range of artistic media from traditional to alternative methods.

# TTU SUMMER PROGRAM

> TTU Campus > Lubbock, TX > Day #7: Sunday, July 08, 2012

Shake Hands With Your Future > Afternoons

## Law

- Why do we need lawyers and judges? What careers in law are available outside the courtroom? Discover what law is, why we have it, and what lawyers and judges really do. You will visit a courtroom, do research and participate in a mock trial.

Shake Hands With Your Future > Afternoons

## Biotechnology

- “From Phenotype to Genotype and Back” will provide you the opportunity to discover the answer to a genetic health problem of a family in Africa. Your course covers DNA structure and function, protein synthesis and natural selection. Your experience in the biotechnology lab will give you the opportunity to solve a crime using DNA evidence.

# TTU SUMMER PROGRAM

> TTU Campus > Lubbock, TX > Day #7: Sunday, July 08, 2012

Shake Hands With Your Future > Afternoons

## Theater Arts

- Do you want to become an actor or just become more confident? By exploring basic techniques (voice, movement, diction, and steps to conquer stage fright), you will be on the road to becoming a true master of the art of acting.

Shake Hands With Your Future > Afternoons

## Anatomy and Physiology

- In this class you will role-play as a medical intern and diagnose three patients after conducting experiments and careful study. You will have the opportunity to learn about the eleven body systems by investigating information about patients with various disorders. A few of the incredible experiments include blood typing, kidney function, lung capacity, enzymes, bone dissection, blood pressure and the effects of nicotine.

Shake Hands With Your Future > Afternoons

## Forensics

- Roll your sleeves up and prepare for a hands-on introduction to forensics. You will participate in fingerprint detection and identification. You will learn about hair and fiber examination, document examination, and the critical role of DNA.

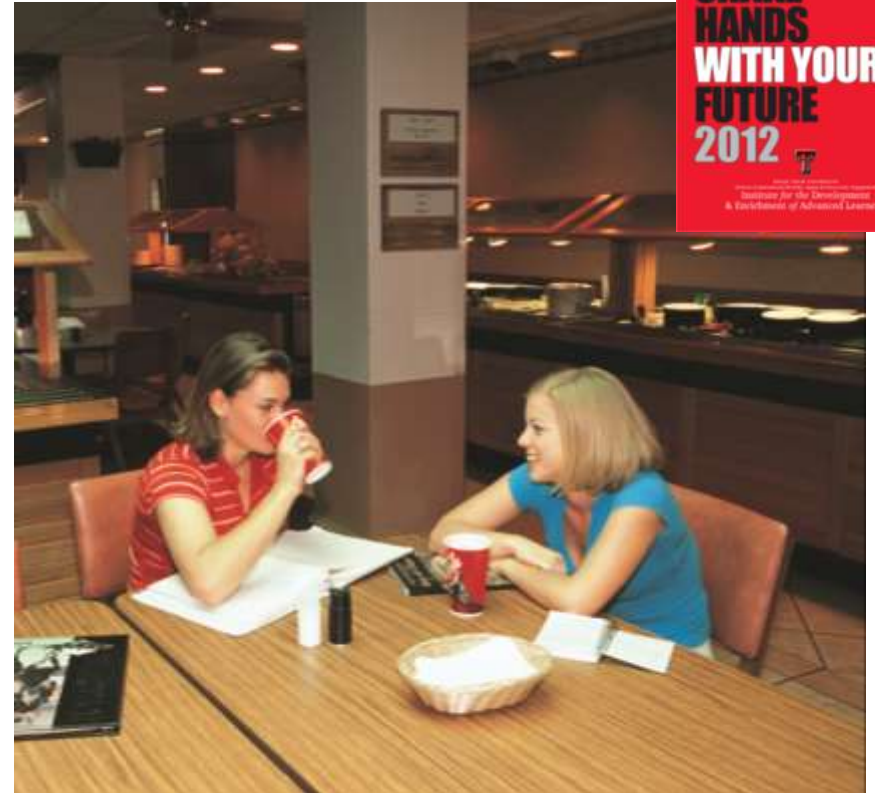

# TTU SUMMER PROGRAM

## > Additional Information about the program

- The TTU Summer Program is a non-profit program contracted by the families directly from Texas Tech University (USA).
- The schools, the National Coordination of TTUHS in Brazil, or High School Serviços Educacionais are not legally responsible for this program. Instead, they act as non-profit facilitators in Brazil, providing information and helping organize the program.
- During their stay, students must have a valid passport, a valid US Tourist Visa and a valid International Health Insurance. Families must provide those items.
- Families are responsible for selecting and buying the air tickets of their choice in a way that the students arrive in Austin, TX, in the morning of July 02, 2012.
- TTU representatives will be welcoming those students at the Austin Bergstrom International Airport (Austin, TX) in the morning of July 02. TTU takes responsibility for the students from that moment until July 13, 2012, when the students will be taken to the Lubbock International Airport to take their flights either back to Brazil or to somewhere else, according to the families' individual choices and itineraries.
